Some one hundred years later, the Danish scientist Kaspar Bartolin debunked both men's claims, pointing out references to the clit that dated back to the second century. Of course, every woman knows that if anyone discovered the clit, it was Eve in the Garden of Eden.

Sade & Masoch

The Marquis de Sade was a sexually obsessed eighteenth-century writer who glorified the pleasure of inflicting pain on one's sexual partner in his life as well as in such works as *Justine*, *Juliette*, and *The 120 Days of Sodom*. Arrested more than once for his writing and his actions, Sade spent much of his life in the asylum and prison. The term Sadism comes from the French *sadisme*, inspired by the Marquis de Sade. The renowned Austrian "Father of Psychoanalysis" Sigmund Freud popularized the term in 1905 in his *Three Essays on the Theory of Sexuality*.

Von Sacher-Masoch, on the other hand, was a nineteenth-century Austrian journalist who played out his fantasies of sexual submission at home and on the page. His most famous "novel," *Venus in Furs*, tells the story of a man who persuades his wife to treat him as her slave with increasing degradation. (And yes, that eponymous song by The Velvet Underground was inspired by this book.) The noted Austrian psychiatrist Richard Freiherr von Krafft-Ebing coined the term masochism after von Sacher-Masoch in his acclaimed treatise *Psychopathia Sexualis* in 1886.
